NOTES:

1. All Quick Connect (MHQ*) coil assemblies are to be equipped with Quick Connect fittings and charged with R410a refrigerant.
2. All Sweat Connect (MHS*) non TXV coil assemblies are to be equipped with loose shipped piston (same size as relative QC coil), a "NOTICE" label (G) prompting installer that metering device is not factory installed, and a tabular data sheet that charts outdoor unit matchups with metering device listing. MHSH3GXXFLX1 does NOT include loose shipped piston.
